

What to Bring for Registration

Insurance Card(s)

Hudson Hospital & Clinic needs to verify your personal and insurance information each visit to protect your identity. Hudson Physicians Clinic and Hudson Hospital are two separate businesses; you may be asked to show your card twice in one visit if having services at both locations.

Identification Band

Depending on your area of care you will be given an identification band . It provides identification to all those who serve you and is for your protection. You may be asked multiple times to verify your birthday and spelling of your name; this is for your safety as a patient.

Photo Identification Card or Driver's License

Used to verify patient identification and prevent identity theft.

Physician's Order/Referral

If your doctor has given you one (your doctor may fax this order directly to the hospital)

Co-pay for visit

Similar to your visits to your physician's office, we require your coinsurance, and or co-payment to be paid at the time of service. We accept cash, check, and credit/debit cards.

Power of Attorney Forms

If you have an active Power of Attorney (POA), please bring a copy, if you know there is not one on file. The POA form will need to be presented in order to be accurately observed. For your convenience, we recommend that you keep a copy of your POA on file at the hospital.

Legal Guardianship Papers

If you have a legal guardian, or are the legal guardian of a patient, you must present notarized legal forms for us to have on file in your medical record. Your legal guardian must accompany you for your visit.

List of Current Medications

Your care provider will instruct you at the time of scheduling if you should bring your current medications with you to the appointment or just have a list available.
